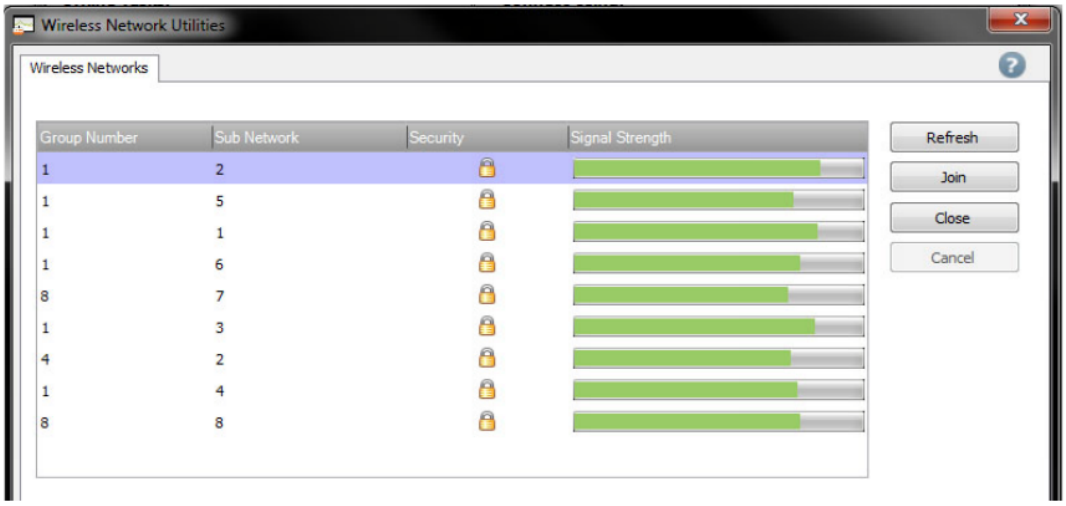
[Tracer Tu Service Tool Software Download]

3. On the right side of the **Startup Task Panel**, select **TU Adapter - Wireless** and then click the **Connect** button. The **Wireless Network Utilities** screen appears (Figure 15) showing the group and subnetwork numbers (which correspond to WCI address settings; see "WCI Addressing," p. 10), and signal strength for all existing wireless networks within radio range of Tracer TU.

Figure 15. Wireless Network Utilities



4. Select the network you want Tracer TU to join. Click the **Join** button.

   Note: *Tracer TU can join only one network at a time.*

5. If a Tracer SC is present on the network, a log-in prompt appears. Enter your ID and password. After log-in, the **Wireless Network Utilities** screen appears as shown in Figure 16.

   Note: *If no Tracer SC is present on the network, the screen shown in Figure 16 appears without the need to log in.*

   In the Security column, the lock icon is replaced by a key icon to identify the network that Tracer TU has joined, and two additional tabs appear on the screen.
